

## PACK MULE VS MOTREC

Motrec MS-260 (48v) VS Pack Mule SC-775 NXG (48v)

FEATURE	PACK MULE	MOTREC	WHY IT MATTERS
<b>Cargo Capacity</b>	1,000 lbs	1,550 lbs. (Stated cargo capacity is 1,750 lbs including an allowance for a 200-lb driver.)	You can stack more on a Motrec, but because of Pack Mule's greater run time between charges, you can more work done with a Pack Mule.
<b>Towing Capacity</b>	2,000 lbs.	6,000 lbs.	Pack Mule's better energy management system means that with Pack Mule, more work gets done. If you need more towing capacity, upgrades to 5,000 lbs. are available.
<b>Deck Size Capacity</b>	48" x 31.5" (1512 sq. in.) standard with six optional sizes	59" x 30" (1770 sq. in.)	Pack Mule's provides the deck size you need. The roomy 31.5 x 48 is standard, but if you need more deck space, Pack Mule provides six size upgrades.
<b>Turn Radius</b>	55"	60"	Pack Mule provides the tightest turn radius in the industry, making it possible to move easily in tight places.
<b>Battery</b>	245 amp/hour	232 amp/hour.	Higher amps per hour increase runtime and battery life. Pack Mule's standard battery provides more amps per hour than Motrec's. If you need still more, upgrades are available.
<b>Braking</b>	Programmable dual regenerative braking.	Self-adjusting drum brakes with regenerative braking	Pack Mule's advanced dual regenerative braking system harvests more kinetic energy to be used by the battery, increasing both run time and brake pad life.

<b>Cargo Deck Material</b>	Melomine Laminated Decking	Painted Plywood Decking	Melomine lamination provides longer life and prevents early failure due to warping or splitting.
<b>Operator Friendly Ergonomic Matting</b>	Standard	Available as an Upgrade	The ergonomic matting makes a day's work easier for the operator, decreasing operator fatigue and increasing both safety and productivity.
<b>Warranty</b>	Three-year Warranty	One-year Warranty	Pack Mule's confidence in its quality allowed it to introduce the industry's first (and only) three-year warranty.
<b>Free Trial</b>	Pack Mule will fully configure a vehicle to your specs and get it to you.	Might provide a demo of a standard vehicle through a dealer.	The best place to compare vehicles is in your own work environment. We make that easy by providing the vehicle, configured to your specifications, and letting you use it for a week. If our competitor will do the same, you can compare them side by side.
<b>Delivery Time/Configured to Order</b>	As little as 48 hours. Up to 3 weeks on larger orders.	Standard products are often available at the dealer's, but special configurations are another matter.	Responsiveness is a basic part of our customer service. We can get you <i>your</i> vehicle quickly. The same is true for parts.
