

## Single Pallet Trailer series:

Built on the foundation of Pack Mule's highly successful and rugged 6-wheel center steer trailers, the new Single Pallet trailer series provides immediate efficiency gains to horizontal material handling operations. Purpose designed and manufactured to seamlessly move multiple loaded pallets in a chain for a fork-lift free environment.

### **All single pallet trailers provide task-specific value:**

- 3/8" thick pallet guide corners for longevity in tough environments
- Removable push bar handle system
- Universal spring-loaded tow bar and hitch - Standard Equipment
- Maximized useable pallet space
- Uniquely engineered pallet guiding handle bar provision
- Fork lift slot provisions
- 2,500# payload capability
- Robust construction, second to none
- Full 3-year Pack Mule warranty

### **Immediately Available in 2 popular sizes:**

- 42" Wide X 50" Long
- 50" Wide X 54" Long

### **Pack Mule Single Pallet Trailers in Action (50" wide X 54" long shown)**
